Portfolio: yagnasrireddymukku.github.io

EXECUTIVE PROFESSIONAL SUMMARY

AI Engineer and Python Full-Stack Developer with hands-on production expertise in Artificial Intelligence, Generative AI systems, full-stack web architectures, Shopify storefront development, and cloud hosting infrastructure. Currently advancing AI production workflows at Rotomaker while pursuing a B.Tech in Computer Science and Engineering (Artificial Intelligence). Proven competency in architecting intelligent pipelines, deploying resilient cloud environments on Hostinger, and transforming complex neural concepts into high-reliability digital applications.

PROFESSIONAL EXPERIENCE

Rotomaker

AI Production Team | AI Engineer & Developer

June 24, 2026 – Present | On-site Production Facility

- Spearheading AI-driven development workflows and automated production pipelines.
- Implementing, benchmarking, and evaluating Generative AI models for studio operations.
- Developing internal intelligent Python tools to automate repetitive tasks and optimize turnaround.
- Collaborating on scalable neural inference pipelines and multimodal asset transformations.
- Contributing to intelligent workflow architectures integrating computer vision and generative models.

Rotomaker

Web & Digital Platform Development

March 13, 2024 – June 23, 2026 | Client Solutions & Operations

- Engineered, launched, and maintained multiple responsive client storefronts on Shopify.
- Architected end-to-end cloud hosting, server provisioning, and deployments on Hostinger.
- Configured DNS records, custom domain routing, SSL certificates, and security protocols.
- Built custom frontend components with reactive principles, modern styling, and clean APIs.
- Oversaw digital store management, product catalogs, checkout flows, and platform maintenance.
- Ensured 99.9% platform uptime, rapid incident resolution, and high web performance scores.

KEY PRODUCTION SYSTEMS & PROJECTS

KNOWVERSE — Full-Stack AI Knowledge Graph Platform

Tech Stack: Python, FastAPI, React, Graph RAG, Semantic Vector Search, LLMs

Architected an intelligent enterprise knowledge system combining multimodal LLMs with relational knowledge graphs. Engineered semantic retrieval pipelines that reduced information lookup latency by 45% with sub-second response times and precise contextual relevance.

MYTHOVERSE — Cinematic AI Narrative Production Pipeline

Tech Stack: Python, ComfyUI, Stable Diffusion, React, Tailwind CSS

Engineered an automated generative pipeline transforming cultural folklore into high-resolution cinematic visual stories. Features customized character consistency adapters, prompt scheduling, scene generation, and automated media packaging.

COMMERCE PLATFORMS & CLOUD DEPLOYMENT — Resilient Web Systems

Tech Stack: Shopify Liquid, Hostinger VPS, DNS, Cloudflare, Webhooks

Delivered end-to-end commercial web storefronts with automated checkout workflows and inventory integrations. Implemented server optimization, asset caching, and security hardening on Hostinger, maintaining 99.9% uptime.

TECHNICAL SKILLS

ARTIFICIAL INTELLIGENCE & GENAI

Generative AI, LLMs, Neural Networks, Prompt Engineering, AI Workflows, RAG Architecture, AI Production Systems

PROGRAMMING & FULL-STACK

Python (Advanced), FastAPI, REST APIs, TypeScript, React.js, Tailwind CSS, Modern HTML5 & CSS3

COMMERCE & PLATFORMS

Shopify Development, Theme Liquid, Store Management, E-Commerce Systems, App Integrations

CLOUD, HOSTING & DEPLOYMENT

Hostinger Hosting & VPS, DNS Management, SSL Certificates, Git, GitHub, Linux Environments

AI TOOLING & WORKFLOWS

ComfyUI, Hugging Face, Cursor, Ollama, Prompt Architecture, Automated Batch Scripting

EDUCATION

Bachelor of Technology (B.Tech)

CSE – Artificial Intelligence

2024 – 2027 | Expected May 2027

Focus: Neural Networks, Machine Learning & Intelligent Systems

Diploma – Comp. Apps & AI

IST's Women's Engineering College, AP

2020 – 2023 | Score: 76% Distinction

Practical software development, computing fundamentals & AI foundations.

Secondary Education (Class X)

Alpha English Medium School, AP

Completed 2020 | 10 GPA (596/600 Marks)

Academic distinction with top school academic honors.

VERIFIED CERTIFICATIONS

- Generative AI Course — GUVI (2025)
- Blockchain Fundamentals — GUVI (2025)
- S.O.L.I.D Principles — Scaler (2024)
- SAWIT.AI Learnathon — SAWIT.AI (2024)
- ChatGPT for Everyone — GUVI (2024)
- AI for Students (GenAI) — Nextwave (2024)
- Python Programming — GUVI (2023)
- C & HTML Courses — Sololearn (2021)

CORE STRENGTHS

- Production-grade AI workflow orchestration & execution
- Rapid full-stack prototyping to reliable deployment
- High-uptime cloud hosting & web performance tuning
- Continuous learning & cutting-edge AI adoption
